

MODULAR MAMMOGRAPHY

A new approach to getting started towards Certification in Mammography, a review of the latest information, or just taking one or two modules to see if the Program interests you. These courses, which have been developed by Anne Cheesman, RTR (R.), (M), CBI, BA, present the latest information in a readable, modular fashion, complete with self tests and submitted assignments. The Program consists of five (5) modules which are available in hard copy or CD versions, at \$100 per module, or a discounted price of \$375 if all five modules are purchased at the same time. You can work on these at your own speed, and they can be used as a prior learning assessment, on application to the Canadian Breast Imaging Program. No previous experience is required for admission, just Membership in the OAMRT. Completion of all five modules will provide a complete Program as preparation for certification or practice.

OAMRT PRICES:

Single Module in hard copy or CD: \$100 plus postage and packaging
Complete Program of 5 Modules: \$375 plus postage and packaging
(courses can be made available to Non-Members at: \$200 and \$750)

Contact: OAMRT Head Office at 1-800-387-4674 Ext. 106
